-  Hyderabad 17000
-  February 17, 1998
-  Pakistani

Skills

Core Subjects: Software Engineering, Artificial Intelligence, Machine Learning, Data Structures, Software Economic & Management

Technical Tools: Python (Data Science), Image Processing, Figma, Canva , MS Office, MS Excel

Academic Skills: Theoretical Teaching, Presentation Skills, Curriculum Planning, Strong Communication

Languages

English, Urdu, Sindhi

Profile

Dedicated and research-driven Software Engineer with a Master's degree (M.E.) from MUET. Proven expertise in Artificial Intelligence and Deep Learning with a passion for academic excellence and mentoring students. Committed to bridging the gap between theoretical software engineering principles and innovative, real-world applications through effective teaching and continuous learning.

Education

M.E. Software Engineering
Mehran University of Engineering & Technology (MUET), Jamshoro, Hyderabad, Sindh

- First Division

B.E. (Hons.) Software Engineering
Mehran University of Engineering & Technology (MUET), Jamshoro, Hyderabad

- First Division

Intermediate (Pre-Engineering)
BISE Hyderabad, Hyderabad

- Grade A

Matriculation (Science)
BISE Hyderabad, Hyderabad

- Grade A

Academic Project & Research

Artificial Intelligence Based Mobile Deep Learning Application for Average Calorie Calculation of Desi Dishes
Developed a mobile app to estimate caloric content of Pakistani/Indian dishes using Image Processing to build a functional prototype.

- Presented at the Project Expo 2020, Software Engineering Department.

Certificates
